

LAND USE PLANNING IN THE PORT OF SAN JUAN

Sebastiano Parmegiani

June 7, 1999

- Review of the developments proposed for the port and waterfront of San Juan
- to identify potential synergies and conflicts
- and understand how they will affect the quality of the urban environment

- **REVIEW OF EXISTING PLANS**
- **TRAFFIC MODEL**
- **WEB PAGE**

Problems

- Fragmentation in the planning process
- Uncertainty about projects' status
- Who is in charge of what?

WANTED

- Update of proposed developments
- Update of roadways redesign
- Traffic flows for major roadways: AM Peak and PM Peak
- Traffic generation data

The Web Site

- Virtual forum
- Simulation tools
