

## Vision Statement

- Ubiquitous real-time information and seamlessness enhance choices and system performance

2

## Goal : Improving Mobility, Reducing Environmental Impact & Enhancing Safety

### Desired Outcomes

- Customer-oriented decisions
- Transportation system with maximum choices
- Integrated system
- Accessible system
- Livable communities

3

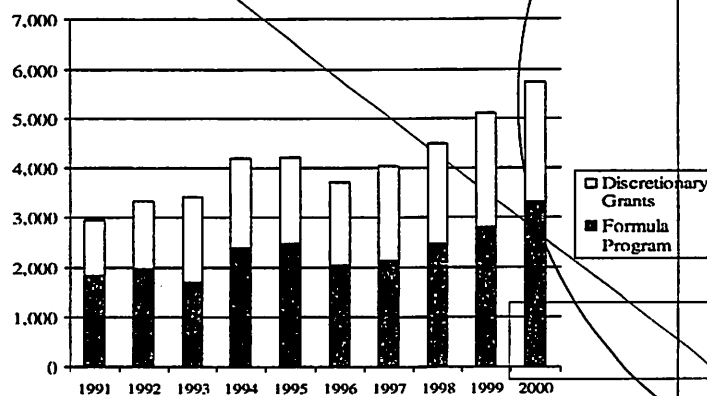

## Today's Situation

- Transit conditions
- Highway conditions
- Urban Development
- Economy

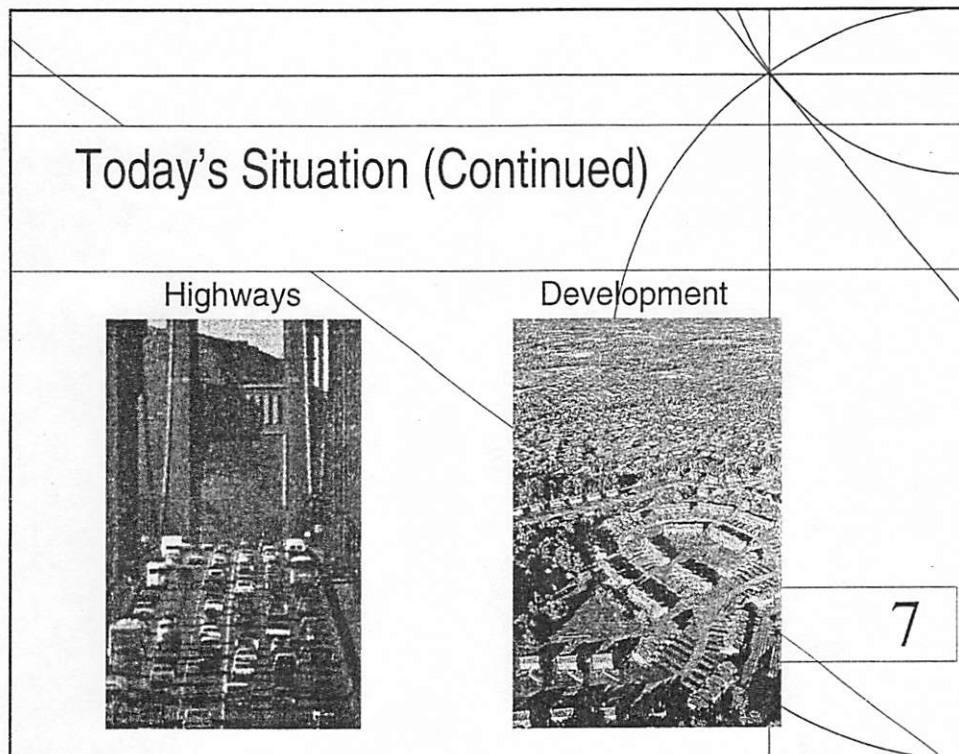

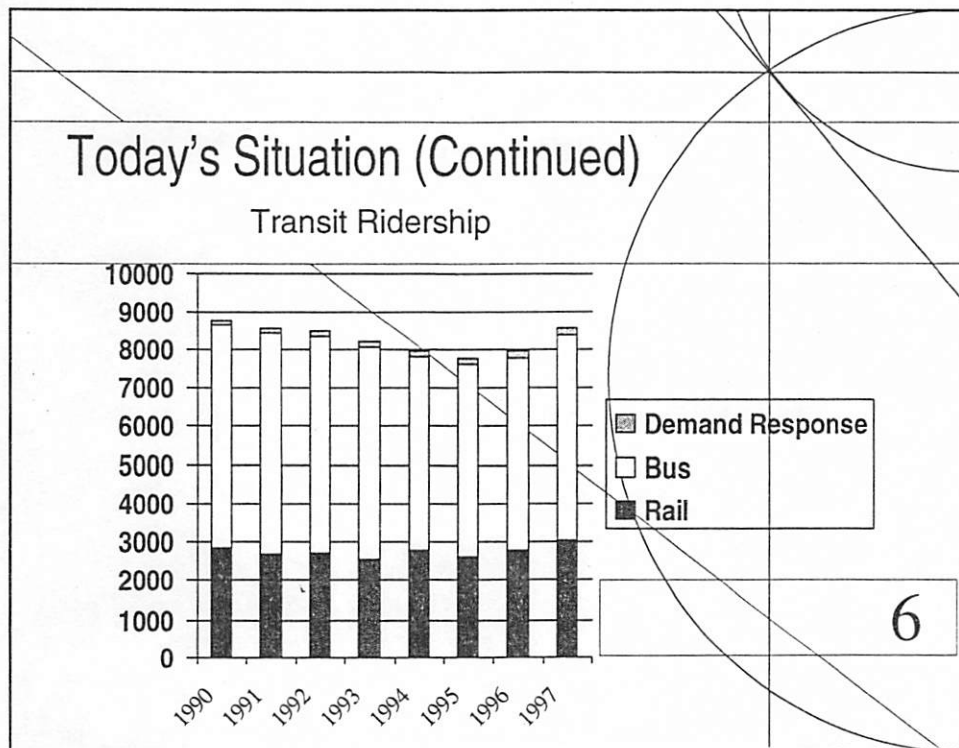

4

## Today's Situation (Continued)

Transit Funding

5

### Today's Situation (Continued)

- Economy
  - Growing technology sector
  - Increasing employment
  - Higher productivity

8

### How Did We Get Here?

- Economic and Population Growth
- Land Use Policies
- Expansion of Highway System
- Advances in Computer, Information and Communication Technology
